But, in fact no man was more decided in favor of the measures of compromise, one and all, than Winfield Scott; and when he pledged himself to that series of resolutions, one of which asserts the final character of the compromise, the fugitive slave law included, he only pledged himself to what he had always approved, and had exerted himself to have passed. THE next Session of this Institution will open as usual, on the First Monday of September and continue through two consecutive Terms of Twenty two Weeks each.

ty, two Weeks each.

The Course of Instruction is liberal and thorough;
the Teachers in the several Departments are of the
first character; the Discipline is as Home-like as it made; and the accommodations, in respect to the Rooms, Board, &c. are extensive and good.— We feel justified while we once more earnestly invite the attention and solicit the patronage of those who desire to afford their daughters an accomplished education, based on the principles and conducted according to the liberal scale of Protestantism.

MANY years of trial, instead of impairing the public confidence in this medicine, has n for it an appreciation and notoriety by far eeding the most sanguine expectations of its friends. NOT A PARTY QUESTION .- A friend who has traveled a great deal through Indiana and Illinois since the nomination of Gen. Scott, brings us the most encouraging accounts of the way "things are working" in those States. He tells an amusing incident which occurred in a stage coach in Illinois. A Whig and a Democrat had been discussing the Free Trade question until both got pretty warm, when the Did you know I have sold my Island Whig became satisfied that his opponent Creek tract of land?' was an obstinate fellow, who would not be convinced of his error, and put an end to the dispute by proposing a vote on the Pres-"You who are Whigs will say 'aye' and you who are Democrats will say 'no.' It is hardly necessary to say and a half an acre. It's better land that the vote of that stage-load was unani-Cin. Gaz. mously for Scott.

OUT AT LAST .- In spite of the researches of the Goologists and the speculations of 'mankind' the exact process by which the solar system was made and arranged has bitherto remained a secret. But now at last this secret is coming out; light is about to be let in upon the mystery. The Mountain Cove Journal will explain it. That paper commences a disclosure on the subject with the following lucid state-

"In the begining of orb-formation. preparatory for mon-formation, vehicles of the Quickening Spirit into intellectual formations, the universal concavity and the universal concavity were coën. folded and encompassed in the universal zodiac, and within the concavity was the visible disclosure unto the germ of the Terrestrial."
